

Addition: Klammern weglassen und Zahlen zusammenrechnen

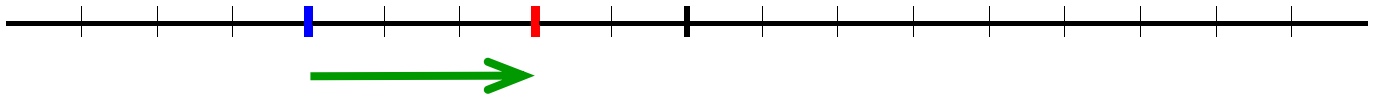

$$(+5) + (+3) = +5 + 3 = +8$$

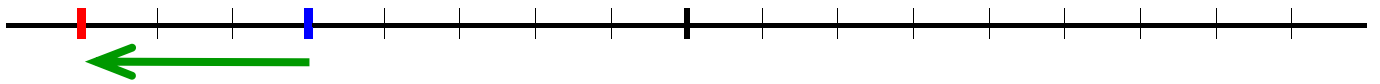

$$(+5) + (-3) = +5 - 3 = +2$$

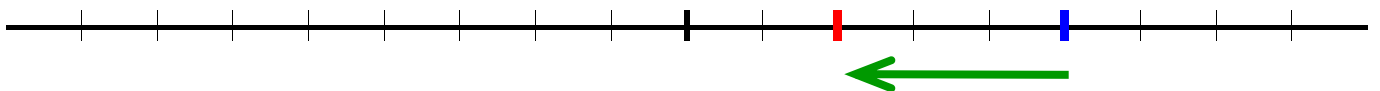

$$(-5) + (+3) = -5 + 3 = -2$$

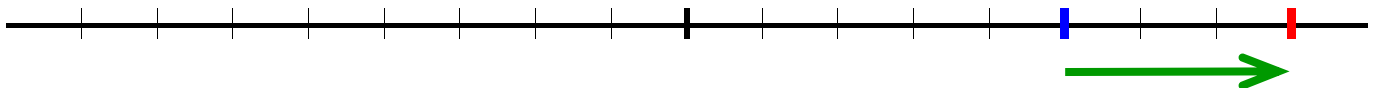

$$(-5) + (-3) = -5 - 3 = -8$$

**Subtraktion:** Rechenzeichen tauschen & Vorzeichen vor 2. Zahl tauschen

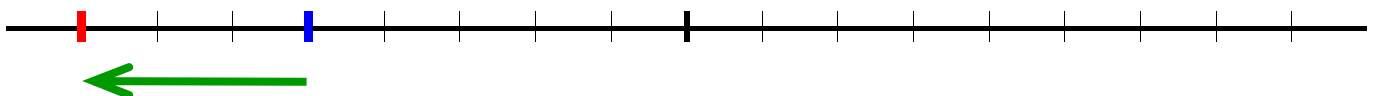

$$(+5) - (+3) = (+5) + (-3) = +5 - 3 = +2$$

$$(+5) - (-3) = (+5) + (+3) = +5 + 3 = +8$$

$$(-5) - (+3) = (-5) + (-3) = -5 - 3 = -8$$

$$(-5) - (-3) = (-5) + (+3) = -5 + 3 = -2$$
